# **BRAINARD'S Popular Lawn Grass Seed Mixtures, Plus the Latest Scientific Development**

## *Rootone - Treated Seed*

### **About Our Lawn Grass Mixtures**

Every pound of mixed grass seed sold by us is mixed by us

### **WE BUY NO MIXED SEED**

The mixtures are made uniformly, to our own balanced formulas from selected, high grade stocks.

Our "REX MIXTURE" Lawn Grass Seed is packed Rootone-treated. All other mixtures and individual grasses will be treated, if desired, at 4c per lb. additional to quoted prices.

### **TREATED SEED**

Hormonized Grass Seed means that the seed has been Rootone-treated. Rootone is a hormone treatment which, immediately upon germination, induces a strong, heavy root growth resulting in a more luxuriant, deeper rooted, more drought resistant turf.

### **A MODERN SCIENTIFIC DEVELOPMENT**

### **Quantity To Use**

The following quantities will be practical on most lawn mixtures. For new lawns, use 1 lb. to 250 sq. ft., 4 lbs. to 1000 sq. ft. For replenishing old lawns we recommend about one-third to one-half this quantity of seed.

### **Brainard's Rex Mixture**

This is our very best mixture for general use and is actually a blend of a number of high grade grasses most suitable to withstand the close cutting, extremes of weather and other adverse conditions ordinary lawns have to endure. This mixture will positively, under favorable conditions produce a permanent, fine texture lawn. 1 lb. 58c, 2 lbs. \$1.14, 3 lbs. \$1.65, 5 lbs. \$2.55, 10 lbs. \$4.90, 15 lbs. \$7.00, 25 lbs. \$11.25, 50 lbs. \$21.25, 100 lbs. \$42.50.

### **Brainard's Verigood Mixture**

This is a mixture of good, serviceable lawn grasses, and while not quite equal in velvety texture to our Rex Mixture, is less expensive and answers well where a high quality, fine bladed grass is not really necessary. 1 lb. 41c, 2 lbs. 80c, 3 lbs. \$1.15, 5 lbs. \$1.80, 10 lbs. \$3.45, 15 lbs. \$4.95, 25 lbs. \$7.85, 50 lbs. \$15.00, 100 lbs. \$30.00.

### **Brainard's Shady Corner**

This mixture is composed of dwarf growing, strong rooting grasses which thrive more or less in sheltered or shaded locations, and will make a quick showing though gradually build a strong green turf. 1 lb. 65c, 2 lbs. \$1.25, 3 lbs. \$1.74, 5 lbs. \$2.75, 10 lbs. \$5.35, 15 lbs. \$7.65, 25 lbs. \$12.25, 50 lbs. \$23.25, 100 lbs. \$46.50.

Of the varieties offered under this heading most are new and recent introductions. Others are especially meritorious varieties having won their leadership by outstanding advantages over older or similar varieties.

### **Alyssum, Compactum Violet Queen**

We believe this will, unquestionably, be one of the leading novelties this season. Plants are dwarf, neat in habit, compact, free flowering, and the small, sweet scented flowers are a rich, deep shade of violet. Splendid sort for borders and edging. Pkt. 20c,  $\frac{1}{8}$  oz. 35c,  $\frac{1}{4}$  oz. 55c.

This new double Cosmos is similar to the single Sensation in height and other habit characteristics. Pkt. 25c, 2 pkts. 45c.

### **Larkspur, Giant Imperial Pink Perfection**

Peat Moss is an especially useful material in the preparation of soil for all broadleaved evergreens, such as Laurel, Rhododendrons, Azaleas, and many others, and liberal quantities of it should be thoroughly worked into the soil before planting.

Newly planted trees, shrubs, and especially evergreens of all types, are very much benefited by a liberal mulch of Peat Moss, and each Spring the last year's mulch should be worked into the soil and a new mulch applied. It is also of value as a mulch for perennial beds, Rose beds, etc.
